A Smarter Procurement Partner

NEUPC Membership: Not-for-Profit Procurement That Delivers

About us.

NEUPC is a not-for-profit purchasing consortium supporting universities and the wider higher education sector. Our purpose is simple: to help members achieve better value for money through compliant, sector-led frameworks and collaborative procurement. Unlike commercial framework providers, NEUPC operates on a low not-for-profit levy of approximately 1%. Many other providers apply levies of 4% or more, meaning a significantly higher proportion of spend is retained as profit. Our model ensures more of our members' spend stays with their institution.

In addition, NEUPC frameworks generate rebates that are returned directly to members or reinvested into services that support the sector. This means framework usage delivers tangible financial return, not just compliance.

NEUPC enables members to secure lower costs, strong governance and real financial value, while keeping resources within the community.

Why Choose Us?

Save time – ready-to-use national frameworks

Save money – £18.2m member benefit delivered last year

Stay compliant – all agreements fully tendered & audit-ready

Reduce risk – supplier due diligence & financial checks included

Gain insight – data analysis, benchmarking & reporting

Get support – access to procurement expertise when you need it

Join a community – collaborate with HE & public sector peers
